

## Christmas Tour 2022

The Kings Chamber Orchestra are returning for a Winter tour with a Christmas theme. Beautiful and surprising evening programmes with music from the film and romantic repertoire, as well as stories, touching reflections and a unique take on the world through music, laughter, and maybe a few tears. There could be a few of your favourite things; as well as seasonal delights by Mozart, Mancini, Morricone and Mendelssohn... Everyone a cracker...Christmas carols and a night sky. Some comfort, some Joy and a celebration of the Prince of peace.

Famous for their family fun, KCO bring again interactive and slightly crazy daytime events on their tour. Some venues are giving family concerts and others concerts for schools. Check the website for individual details and the local venues, going live on Oct 21st.

"The mixture of classical music, musical narrative, fun and nonsense, combined with the serious purpose, was magical."

"...this outstanding professional orchestra gives the most original and exciting children's concerts I have ever heard. Relaxed and informal, its imaginative programming is brilliantly presented. Way better than anything I have seen in Central London - a treat for the adults too!"

Helen Mansfield, Producer, BBC TV Classical Music

Formed in 1985 by Gerard Le Feuvre, the Kings Chamber Orchestra is an outstanding professional orchestra, who perform 60 times throughout the year in London, the Home Counties, and occasionally abroad. The outstanding professional orchestra has developed an outstanding programme of events annually that, many that support Christian causes. The orchestra's enthusiasm, humour, and a unique ability to touch the public with improvisations and depth has attracted large and often unprecedented audiences wherever it has regularly performed, as well as national recognition for its children's concerts and innovative evening programmes.
